WEEKLY ROUNDUP OF WORLD PRODUCTION AND TRADE

Supplement 9-82

WASHINGTON, Nov. 3--The Foreign Agricultural Service of the U.S. Department of Agriculture today reported the following recent developments in U.S. agricultural trade:

## TOTAL U.S. AGRICULTURAL EXPORTS

U.S. agricultural exports in fiscal 1982 were valued at \$39.1 billion, down 11 percent from the record of \$43.8 billion in fiscal 1981 and 3 percent lower than fiscal 1980, when exports were \$40.5 billion.

The volume of U.S. agricultural exports in fiscal 1982 was 158.4 million tons, 2 percent below the previous year and 3 percent below the fiscal 1980 record of 163.9 million; however, the volume of wheat and soybean exports set a record in fiscal 1982.

Lower prices for major commodities accounted for most of the total value decline; a depressed global economy, increased grain supplies in the United States as well as some major importing countries, an appreciated U.S. dollar and foreign exchange constraints limited export volume, especially for corn.

## GRAIN AND FEED

Due to both lower export volume and prices, the value of grain and feed exports in fiscal 1982 fell 20 percent to \$17.6 billion, compared with the fiscal 1981 record of \$21.9 billion and \$18.5 billion in 1980.

Despite a 6-percent increase in wheat export volume in fiscal 1982 to a record 44.6 million tons, an 8-percent decrease in unit value resulted in a total wheat export value decline of 4 percent to \$7.4 billion. However, the fiscal 1982 total is up 18 percent from fiscal 1980's level of \$6.3 billion.

The volume of corn exports fell 16 percent to 49.6 million tons, and, coupled with lower prices, totaled only \$6.0 billion, a 34-percent drop and 24 percent lower than fiscal 1980 exports.

Rice export volume in fiscal 1982 declined 8 percent to 2.9 million tons, with total value dropping 25 percent to \$1.1 billion.

## OILSEEDS AND PRODUCTS

The value of oilseeds and products exports in fiscal 1982 totaled \$9.7 billion, somewhat less than the 1980 record of \$10.0 billion, but 4 percent more than in fiscal 1981.

Soybean export volume in fiscal 1982 rose 28 percent to a record 25.5 million tons, and soybean export value increased 8 percent to a record \$6.5 billion.

#### COTTON AND TOBACCO

The volume of cotton exports rose 23 percent to 6.8 million bales, but sharply lower prices led to a 4-percent decline in export value to \$1.1 billion.

Tobacco export volume increased 1 percent to 255,000 tons, and export value increased 11 percent to \$1.5 billion.

#### DAIRY, LIVESTOCK AND POULTRY

The value of dairy, livestock and poultry exports declined 1 percent to \$4.1 billion, as a 24-percent drop in poultry exports (mostly volume) offset a 53-percent gain in dairy exports.

#### HORTICULTURAL AND TROPICAL PRODUCTS

The value of horticultural exports declined 8 percent to \$2.9 billion due to lower export volumes for fresh citrus and nuts.

#### TOTAL U.S. AGRICULTURAL IMPORTS

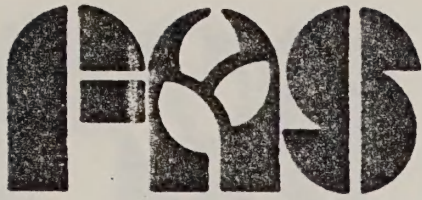

Total U.S. agricultural imports for fiscal year 1982 were valued at \$15.35 billion, down 11 percent from last year with the volume unchanged. Sugar and tropical product imports were valued at \$6.0 billion for fiscal 1982, down 23 percent from last year. Imports of sugar, cocoa, rubber and allied gums, and coffee were down 46, 26, 25 and 9 percent, respectively, from the previous year. Oilseeds and product imports, valued at \$503 million, recorded the sharpest decline from fiscal 1981--45 percent. A major portion of this decline is a result of a sharp drop in peanut, palm and coconut oil imports.

#### HORTICULTURAL AND TROPICAL PRODUCTS

Horticultural product imports during fiscal 1982 were valued at \$4.3 billion, up 12 percent from last year. Although increases occurred in many product items, fruit juice imports (mostly orange juice concentrate) of \$390 million were up 46 percent in value and 42 percent in volume.

#### LIVESTOCK AND PRODUCTS

Livestock and livestock product imports in fiscal 1982 were valued at \$2.9 billion, down 7 percent from a year ago. Most of this decline resulted from lower import values for beef and veal (\$1.4 billion), down 14 percent from 1981. Volume was down 1 percent, reflecting lower unit values. Pork and live animal imports offset the drop in import values somewhat. Pork imports were up 10 percent to \$561 million, while live animal imports, valued at \$401 million, were up 18 percent. Dairy product imports in 1982 were valued at \$593 million, up 14 percent from last year.

## EXPORT PERIOD EXTENDED FOR GUARANTEED U.S. VEGETABLE OIL SALES TO PAKISTAN

WASHINGTON, Sept. 1--The Commodity Credit Corporation (CCC) today extended the export period under the \$60 million guarantee line authorized for sales of U.S. vegetable oils to Pakistan under the Export Credit Guarantee Program (GSM-102), according to Melvin E. Sims, general sales manager for the U.S. Department of Agriculture's Foreign Agricultural Service.

The export period has been extended from Sept. 30, 1982 through Dec. 31, 1982. A balance of approximately \$32.5 million in guarantees is currently available to U.S. exporters for sales of vegetable oils (cottonseed, peanut, soybean, or sunflowerseed). All sales must be registered with CCC by Sept. 30, 1982.

To be eligible for up to two-year coverage, U.S. exporters must submit an application along with a guarantee fee to CCC before export is completed.

The guarantee rates include a charge to provide for a per annum interest rate coverage of up to 8 percent on the guaranteed value. Exporters may apply for a guaranteed value up to a maximum of 98 percent of the port value.

Based on semiannual repayments of principal, plus accrued interest, the fee rate is 15.6 cents per \$100 for six months; 23.4 cents per \$100 for one year; and 39.3 cents per \$100 for two years.

Based on equal annual repayments of principal, plus accrued interest, the fee rate is 32.9 cents per \$100 for one year; and 50.1 cents per \$100 for two years.
